

RFP-22-001 Community Needs Assessment and Strategic Plan

Questions – Round 1

1. Are you able to let us know if there is any budget range for this work?

We will not be providing a budget range, but we anticipate that proposals will provide an itemized budget as requested under the proposal requirements that will be informed by previous projects with the public/government agencies as well as deliverables requested. The overall cost of the project will be used to evaluate the proposals as it is worth 15 (out of 100) points.
