

Questions and Answers for RFQ-133 Power Evaluation on Tele-Power Pole at the Wapato Library

1. Are we turning in page 5 only of the RFQ?

Page 5 with references is required, as well as a quote that includes project costs as outlined in the Scope of Work.

2. Is there a page limit for the proposal?

There is no page limit for the proposal/quote.

3. What specific symptoms are occurring (outages, tripping, flicker, reboots, etc.)?

We experienced a power surge and a short power outage.

4. Is the issue constant or intermittent?

The issue remained constant after the power surge and outage.

5. When was the issue first observed?

February 18, 2026

6. Has the issue changed since it was first noticed?

Yakima Valley Libraries staff have not verified whether the issue has changed since it was first noticed.

7. Has there been any safety concern (heat, odor, equipment damage)?

No safety concerns have been observed.

8. Has the issue caused service disruption or staff downtime?

After identifying an issue, staff experienced a temporary service disruption, with no power to the computers, until IT was able to make it onsite and add a surge protector from another outlet as a workaround.

9. Whether the tele-power pole is on a dedicated or shared circuit?

The tele-power pole is on a dedicated circuit.

10. Any IT observations related to power or network stability?

IT observed a power issue with the outlets on the tele-power pole, but the network is still being used at this time.

11. How will the final report be used (internal approval vs. future procurement)?

Yakima Valley Libraries will use the report to evaluate the findings and recommended corrective action to determine next steps, which may or may not include a future procurement.

12. Are there any photos?

No current photos to share.
